

CITY OF HOLLYWOOD GENERAL EMPLOYEES' RETIREMENT SYSTEM
ACTUARIAL VALUATION REPORT AS OF OCTOBER 1, 2012

ANNUAL EMPLOYER CONTRIBUTION FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2014

May 2, 2013

Board of Trustees
City of Hollywood General
Employees' Retirement System
Hollywood, Florida

Dear Board Members:

The results of the October 1, 2012 Annual Actuarial Valuation of the City of Hollywood General Employees' Retirement System are presented in this report.

This report was prepared at the request of the Board and is intended for use by the Retirement System and those designated or approved by the Board. This report may be provided to parties other than the System only in its entirety and only with the permission of the Board.

The purpose of the valuation is to measure the System's funding progress, to determine the employer contribution rate for the fiscal year ending September 30, 2014, and to determine the actuarial information for Governmental Accounting Standards Board (GASB) Statement No. 25 and No. 27.

This report should not be relied on for any purpose other than the purpose described above.

The findings in this report are based on data or other information through September 30, 2012. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law.

The valuation was based upon information furnished by the Plan Administrator concerning Retirement System benefits, financial transactions, plan provisions and active members, terminated members, retirees and beneficiaries. We checked for internal and year-to-year consistency, but did not otherwise audit the data. We are not responsible for the accuracy or completeness of the information provided by the Plan Administrator.

This report was prepared using certain assumptions prescribed by the Board as described in Section B.

The undersigned actuaries are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. The signing actuaries are independent of the plan sponsor.

This report has been prepared by actuaries who have substantial experience valuing public employee retirement systems. To the best of our knowledge the information contained in this report is accurate and fairly presents the actuarial position of the Retirement System as of the valuation date. All calculations have been made in conformity with generally accepted actuarial principles and practices, with the Actuarial Standards of Practice issued by the Actuarial Standards Board and with applicable statutes.

This actuarial valuation and/or cost determination was prepared and completed by me or under my direct supervision, and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate. In my opinion, the techniques and assumptions used are reasonable, meet the requirements and intent of Part VII, Chapter 112, Florida Statutes, and are based on generally accepted actuarial principles and practices. There is no benefit or expense to be provided by the plan and/or paid from the plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. All known events or trends which may require a material increase in plan costs or required contribution rates have been taken into account in the valuation.

Respectfully submitted,

GABRIEL, ROEDER, SMITH AND COMPANY

SECTION A
DISCUSSION OF VALUATION RESULTS

DISCUSSION OF VALUATION RESULTS

Comparison of Required Employer Contributions

The following is a comparison of required contributions developed in this year's and last year's actuarial valuations.

	For FYE 9/30/2014 Based on 10/1/2012 Valuation	For FYE 9/30/2013 Based on 10/1/2011 Valuation	Increase (Decrease)
Required Employer Contribution	\$ 20,341,256	\$ 18,344,461	\$ 1,996,795
As % of Covered Payroll	67.51 %	59.43 %	8.08 %

The required employer contribution listed above is for the fiscal year ending September 30, 2014. The contribution has been adjusted for interest on the basis that contributions are made in equal payments at the end of each biweekly payroll period.

The actual employer contribution for the fiscal year ending September 30, 2012 was \$13,050,878. The required employer contribution was \$13,050,878 based on an expedited payment schedule.

Revisions in Benefits

There were no changes in benefit provisions since the last valuation.

Revisions in Actuarial Assumptions or Methods

There were no changes in actuarial assumptions or methods since the last valuation.

Actuarial Experience

There was a net actuarial loss of \$16,888,651 for the year which means that actual experience was less favorable than anticipated. The loss is due to recognized investment return below the assumed rate of 8.0% and more retirements than expected. The investment return was 19.8% based on market value of assets and 1.9% based on actuarial value of assets. The net loss has increased the required employer contribution by 4.96% of covered payroll.

Supplemental Pension Distribution

The Plan provides that a supplemental pension distribution may be paid to eligible benefit recipients if the market value rate of return exceeds the assumed rate of return plus 4.5%. The market value rate of return for the fiscal year ending September 30, 2012 exceeded 12.5%. However, based on Chapter 112.61 of the Florida Statutes actuarial experience may be used to fund additional benefits provided the present value of such benefits does not exceed the accumulated net actuarial experience. Since there are cumulative losses since October 1, 2002, there is no supplemental pension distribution available to eligible benefit recipients.

Funded Ratio

The funded ratio this year is 56.2% compared to 59.6% last year. The funded ratio is equal to the actuarial value of assets divided by the actuarial accrued (past service) liability.

Analysis of Change in Employer Contributions

The components of change in the required employer contribution as a percent of payroll are as follows:

Contribution Rate Last Year	59.43	%
Actuarial Experience	4.96	
Amortization Payment on UAAL	2.92	*
Normal Cost Rate	(0.03)	
Administrative Expenses	<u>0.23</u>	
Contribution Rate This Year	67.51	

* Largely due to the decrease in covered payroll.

Variability of Future Contribution Rates

The Actuarial Cost Method used to determine the contribution rate is intended to produce contribution rates which are generally level as a percent of payroll. Even so, when experience differs from the assumptions, as it often does, the employer's contribution rate can vary significantly from year-to-year.

Over time, if the year-to-year gains and losses offset each other, the contribution rate would be expected to return to the current level, but this does not always happen.

The Actuarial Value of Assets exceeds the Market Value of Assets by \$382,176 as of the valuation date (see Section C). This difference will be gradually recognized over the next several years. In turn, the computed employer contribution rate will increase by approximately 0.1% of covered payroll over the same period in the absence of offsetting gains.

Another potential area of variability has to do with the annual payment on the unfunded accrued liability (UAL). This payment is computed as a level percent of covered payroll under the assumption that covered payroll will rise by 3.5% per year. According to Florida Law, this payroll growth assumption may not exceed the average growth over the last ten years which is below 0%. Therefore, the UAL is being amortized as a level dollar amount this year. Amortizing the UAL as a level dollar amount instead of as a level percent of payroll using a 3.5% payroll growth assumption caused the required contribution to increase by \$3.6 million. If the ten-year average increases above 0% next year, the amortization payments in the following year will decrease.

Relationship to Market Value

If market value of assets had been used in the valuation instead of the smoothed value of assets, the City contribution rate would have been 67.62% and the funded ratio would have been 56.1%. In the absence of other gains and losses, the City contribution rate should increase to that level over the next several years.

Conclusion

The remainder of this Report includes detailed actuarial valuation results, financial information, miscellaneous information and statistics, and a summary of plan provisions.

SECTION B
VALUATION RESULTS

PARTICIPANT DATA		
	October 1, 2012	October 1, 2011
ACTIVE MEMBERS

1. Service Retirement Benefits	\$ 2,874,379	\$ 2,927,867
2. Vesting Benefits	773,664	819,261
3. Disability Benefits	611,892	626,724
4. Preretirement Death Benefits	170,312	175,522
5. Return of Member Contributions	<u>135,422</u>	<u>136,520</u>
6. Total for Future Benefits	4,565,669	4,685,894
7. Assumed Amount for Administrative Expenses	<u>245,471</u>	<u>185,851</u>
8. Total Normal Cost	4,811,140	4,871,745
C. Expected Member Contribution	2,620,064	2,684,117
D. Employer Normal Cost: B8-C	2,191,076	2,187,628
E. Employer Normal Cost as % of Covered Payroll	7.53 %	7.34 %

LIQUIDATION OF THE UNFUNDED ACTUARIAL ACCRUED LIABILITY

A. UAAL Amortization Period and Payments					
Original UAAL			Current UAAL		
Date Established	Source	Amount	Years Remaining	Amount	Payment
10/1/08	Combined Base	\$ 120,402,171	16	\$ 120,727,552	\$ 12,629,094
10/1/08	Assumption Change	6,133,233	26	6,929,533	593,547
10/1/09	Exp. Loss	21,720,025	27	22,710,307	1,922,976
10/1/10	Exp. Loss	5,090,043	28	5,212,505	436,735
10/1/10	Assumption Change	(11,684,981)	28	(11,966,112)	(1,002,593)
10/1/10	Plan Change	(17,448,058)	28	(17,867,843)	(1,497,076)
10/1/11	Exp. Loss	26,493,199	29	26,930,074	2,234,661
10/1/12	Exp. Loss	16,888,651	30	16,888,651	1,389,051
		<u>\$ 167,594,283</u>		<u>\$ 169,564,667</u>	<u>\$ 16,706,395</u>

B. Amortization Schedule

The UAAL is being liquidated as a level percent of payroll over the number of years remaining in the amortization period. The expected amortization schedule is as follows:

Amortization Schedule	
Year	Expected UAAL
2012	\$ 169,564,667
2013	165,086,917
2014	160,250,964
2015	155,028,134
2016	149,387,478
2017	143,295,570
2022	104,697,671
2027	47,984,695
2032	26,115,487
2037	12,538,728
2042	0

ACTUARIAL GAINS AND LOSSES

The assumptions used to anticipate mortality, employment turnover, investment income, expenses, salary increases, and other factors have been based on long range trends and expectations. Actual experience can vary from these expectations. The variance is measured by the gain and loss for the period involved. If significant long term experience reveals consistent deviation from what has been expected and that deviation is expected to continue, the assumptions should be modified. The net actuarial gain (loss) for the past year is computed as follows:

1. Last Year's UAAL (After Changes in Benefits, Assumptions, or Methods)		\$ 151,988,066
2. Last Year's Employer Normal Cost		2,187,628
3. Last Year's Employer Contributions		13,050,878
4. Interest at the Assumed Rate on:		
a. 1 and 2 for one year		12,334,056
b. 3 from dates paid		782,856
c. a - b		11,551,200
5. This Year's Expected UAAL (Before any Changes in Assumptions or Benefits): 1 + 2 - 3 + 4c		152,676,016
6. Change in UAAL Due to Change in Assumptions		0
7. Change in UAAL Due to Change in Benefits		0
8. This Year's Expected UAAL (After Changes in Assumptions and Benefits): 5 + 6 + 7		152,676,016
9. This Year's Actual UAAL (After Changes in Assumptions and Benefits)		169,564,667
10. Net Actuarial Gain (Loss): 8 - 9		(16,888,651)
11. Gain (Loss) Due to Investments		(14,051,589)
12. Gain (Loss) From Other Sources		(2,837,062)

Net actuarial gains in previous years have been as follows:

Year Ended	Net Gain (Loss)	
	Prior*	Supplemental
9/30/1982	\$ 357,574	\$ (293,400)
9/30/1983	(53,055)	(47,952)
9/30/1984	655,952	13,007
9/30/1985	1,910,328	214,974
9/30/1986	3,522,953	387,117
9/30/1987	3,085,353	541,011
9/30/1988	1,673,391	(20,803)
9/30/1989	631,806	(395,640)
9/30/1990	2,021,350	(117,331)
9/30/1991	(2,112,517)	N/A
9/30/1992	1,394,549	N/A
9/30/1993	(4,345,862)	N/A
9/30/1994	(4,780,402)	N/A
9/30/1995	8,381,537	N/A
9/30/1996	694,600	N/A
9/30/1997	2,097,065	N/A
9/30/1998	(859,539)	N/A
9/30/1999	(828,976)	N/A
9/30/2000	3,710,238	N/A
9/30/2001	(6,021,041)	N/A
9/30/2002	(18,219,741)	N/A
9/30/2003	(6,740,689)	N/A
9/30/2004	(19,270,365)	N/A
9/30/2005	(11,135,131)	N/A
9/30/2006	(16,622,969)	N/A
9/30/2007	(2,621,034)	N/A
9/30/2008	(6,640,889)	N/A
9/30/2009	(2,172,025)	N/A
9/30/2010	(5,090,043)	N/A
9/30/2011	(26,493,199)	N/A
9/30/2012	(16,888,651)	N/A

* After 1990, these are the figures for the entire System.

The fund earnings and salary increase assumptions have considerable impact on the cost of the Plan so it is important that they are in line with the actual experience. The following table shows the actual fund earnings and salary increase rates compared to the assumed rates for the last several years:

Year Ending	Investment Return		Salary Increases			
	Actual	Assumed	Prior Members		Other Members ¹	
			Actual	Assumed	Actual	Assumed
9/30/1977	8.9 %	5.0 %	10.0 %	3.0 %	N/A %	N/A %
9/30/1978	9.5	6.5	8.3	5.0	7.1	5.0
9/30/1979	8.8	6.5	8.1	5.0	14.1	5.0
9/30/1980	8.4	6.5	18.5	5.0	24.8	5.0
9/30/1981	0.4	6.5	11.0	5.0	12.1	5.0

¹ All members after 9/30/1994.

² Because the salary basis reported to the actuaries changed from 10/1/1993 to 10/1/1994, a meaningful salary increase figure was not computed.

³ Reflects a one-time pay reduction for general fund members and no pay increases for non-general fund members.

⁴ Reflects no pay increases for general fund members.

The actual investment return rates shown above are based on the actuarial value of assets. The actual salary increase rates shown above are the increases received by those active members who were included in the actuarial valuations both at the beginning and the end of each year.

Recent History of Required and Actual Contributions

ACTUARIAL ASSUMPTIONS AND COST METHOD

Valuation Methods

Actuarial Cost Method - Normal cost and the allocation of benefit values between service rendered before and after the valuation date were determined using an **Individual Entry-Age Actuarial Cost Method** having the following characteristics:

- (i) the annual normal cost for each individual active member, payable from the date of employment to the date of retirement, is sufficient to accumulate the value of the member's benefit at the time of retirement;
- (ii) each annual normal cost is a constant percentage of the member's year by year projected covered pay.

Actuarial gains/(losses), as they occur, reduce (increase) the Unfunded Actuarial Accrued Liability.

Financing of Unfunded Actuarial Accrued Liabilities - Unfunded Actuarial Accrued Liabilities (full funding credit if assets exceed liabilities) were amortized by level (principal & interest combined) percent-of-payroll contributions over a reasonable period of future years.

Actuarial Value of Assets - The Actuarial Value of Assets phases in the difference between the actual return on market value and the expected return on Actuarial Value of Assets at the rate of 20% per year. The Actuarial Value of Assets will be further adjusted to the extent necessary to fall within the corridor whose lower limit is 80% of the Market Value of plan assets and whose upper limit is 120% of the Market Value of plan assets. During periods when investment performance exceeds the assumed rate, Actuarial Value of Assets will tend to be less than Market Value. During periods when investment performance is less than assumed rate, Actuarial Value of Assets will tend to be greater than Market Value.

Valuation Assumptions

The actuarial assumptions used in the valuation are shown in this Section.

Economic Assumptions

The investment return rate assumed in the valuation is 8.0% per year, compounded annually (net after investment expenses).

The **Wage Inflation Rate** assumed in this valuation was 3.5% per year. The Wage Inflation Rate is defined to be the portion of total pay increases for an individual that are due to macro economic forces including productivity, price inflation, and labor market conditions. The wage inflation rate does not include pay changes related to individual merit and seniority effects.

The assumed **real rate of return** over wage inflation is defined to be the portion of total investment return that is more than the assumed wage inflation rate. Considering other economic assumptions, the 8.0% investment return rate translates to an assumed real rate of return over wage inflation of 4.5%.

The active member population is assumed to remain constant. For purposes of financing the unfunded liabilities, total payroll is assumed to grow at 3.5% per year. The most recent ten year average is below 0%.

Total payroll is projected to the contribution year by applying a 3.5% payroll increase assumption.

Pay increase assumptions for individual active members are shown below. Part of the assumption for each age is for merit and/or seniority increase, and the other 3.5% recognizes wage inflation, including price inflation, productivity increases, and other macro economic forces.

The rates of salary increase used for general employees are in accordance with the following tables. This assumption is used to project a member's current salary to the salaries upon which benefits will be based. Benefits are increased by 1.2% for all members except those classified as management employees to reflect the inclusion of unused vacation leave in Average Final Compensation. The dollar balance of unused sick leave is added to Average Final Compensation to reflect the inclusion of unused sick leave in Average Final Compensation. The dollar balance is calculated as the lesser of the accumulated sick leave hours as of October 1, 2002 and as of October 1, 2012 multiplied by the hourly rate of pay as of October 1, 2012. For general fund members who are not normal retirement eligible as of September 30, 2011, adjustments are not made for unused vacation leave and unused sick leave for benefits accrued after September 30, 2011.

If Hired Before July 15, 2009			
Years of Service	% Increase in Salary

20	1.00	3.50	4.50
21 or more	0.50	3.50	4.00

Demographic Assumptions

The mortality table was the RP-2000 Combined Healthy Participant Mortality Tables for males and females with mortality improvements projected with Scale AA to 2016.

Sample Attained Ages	Probability of		Future Life	
	Dying Next Year		Expectancy (years)	
	Men	Women	Men	Women
50	0.16 %	0.13 %	32.43	34.47
55	0.27	0.24	27.72	29.73
60	0.52	0.47	23.18	25.17
65	1.02	0.90	18.91	20.88
70	1.74	1.55	15.00	16.94
75	3.02	2.47	11.43	13.36
80	5.48	4.10	8.33	10.16

This assumption is used to measure the probabilities of each benefit payment being made after retirement. For active members, the probabilities of dying before retirement were based upon the same mortality table as members dying after retirement. For disabled retirees, the regular mortality tables are set forward 5 years in ages to reflect impaired longevity. No provision has been made for mortality improvements after 2016.

The rates of retirement used to measure the probability of eligible members retiring during the next year were as follows:

Non-General Fund Members Hired Before July 15, 2009		
Number of Years After First Eligibility for Normal Retirement	Probability of Normal Retirement	
	For 55 and 5 Retirement	For 25 and Out Retirement
0	20 %	30 %
1	5	20

Rates of separation from active membership were as shown below (rates do not apply to members eligible to retire and do not include separation on account of death or disability). This assumption measures the probabilities of members remaining in employment.

Sample Ages	% Separating Within Next Year
20	12.4 %
25	11.7
30	10.5
35	8.3
40	5.7
45	3.5
50	1.5
55	0.6
60	0.5

Rates of disability among active members (25% of disabilities are assumed to be service-connected).

Sample Ages	% Becoming Disabled Within Next Year
20	0.07 %
25	0.09
30	0.11
35	0.14
40	0.19
45	0.30
50	0.51
55	0.96

Miscellaneous and Technical Assumptions

<i>Administrative & Investment Expenses</i>	The investment return assumption is intended to be the return net of investment expenses. Annual administrative expenses are assumed to be equal to the prior year's expenses. Assumed administrative expenses are added to the Normal Cost.
<i>Benefit Service</i>	Exact fractional service is used to determine the amount of benefit payable.
<i>COLA</i>	For projected retirement benefits for active members, the 2.0% annual COLA is assumed to begin 4 years after retirement benefits begin. The COLA delay is 3 years for active members who are not eligible to enter the DROP. The COLA delay is assumed to be 6 years for current DROP members who entered the DROP after August 17, 2009.
<i>Decrement Operation</i>	Disability and mortality decrements operate during retirement eligibility.
<i>Decrement Timing</i>	Decrements of all types are assumed to occur at the beginning of the year.
<i>Eligibility Testing</i>	Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.
<i>Forfeitures</i>	For vested separations from service, it is assumed that 0% of members separating will withdraw their contributions and forfeit an employer financed benefit. It was further assumed that the liability at termination is the greater of the vested deferred benefit (if any) or the member's accumulated contributions.
<i>Incidence of Contributions</i>	Employer contributions are assumed to be made in equal installments biweekly throughout the year. Member contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made.
<i>Liability Load</i>	Projected benefits are loaded by 1.2% to recognize the effect of unused vacation leave on Average Final Compensation for all members except those classified as management employees. For general fund members who are not normal retirement eligible as of September 30, 2011, the load is not applied to benefits accrued after September 30, 2011.
<i>Marriage Assumption</i>	100% of males and 100% of females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses for active member valuation purposes.

<i>Maximum Benefit</i>	The maximum accrued benefit payable as a life annuity reflects the 415(b) limit (\$195,000 for 2011 for ages 62 through 65). The limitation is projected to increase by 4.0% per year and is adjusted for other commencement ages based on IRS regulations.
<i>Normal Form of Benefit</i>	A life annuity is the normal form of benefit.
<i>Pay Increase Timing</i>	Beginning of fiscal year. This is equivalent to assuming that reported pays represent amounts paid to members during the year ended on the valuation date.
<i>Service Credit Accruals</i>	It is assumed that members accrue one year of service credit per year.

GLOSSARY

<i>Actuarial Accrued Liability (AAL)</i>	The difference between the Actuarial Present Value of Future Benefits, and the Actuarial Present Value of Future Normal Costs.
<i>Actuarial Assumptions</i>	Assumptions about future plan experience that affect costs or liabilities, such as: mortality, withdrawal, disablement, and retirement; future increases in salary; future rates of investment earnings; future investment and administrative expenses; characteristics of members not specified in the data, such as marital status; characteristics of future members; future elections made by members; and other items.
<i>Actuarial Cost Method</i>	A procedure for allocating the Actuarial Present Value of Future Benefits between the Actuarial Present Value of Future Normal Costs and the Actuarial Accrued Liability.
<i>Actuarial Equivalent</i>	Of equal Actuarial Present Value, determined as of a given date and based on a given set of Actuarial Assumptions.
<i>Actuarial Present Value (APV)</i>	The amount of funds required to provide a payment or series of payments in the future. It is determined by discounting the future payments with an assumed interest rate and with the assumed probability each payment will be made.
<i>Actuarial Present Value of Future Benefits (APVFB)</i>	The Actuarial Present Value of amounts which are expected to be paid at various future times to active members, retired members, beneficiaries receiving benefits, and inactive, nonretired members entitled to either a refund or a future retirement benefit. Expressed another way, it is the value that would have to be invested on the valuation date so that the amount invested plus investment earnings would provide sufficient assets to pay all projected benefits and expenses when due.
<i>Actuarial Valuation</i>	The determination, as of a valuation date, of the Normal Cost, Actuarial Accrued Liability, Actuarial Value of Assets, and related Actuarial Present Values for a plan. An Actuarial Valuation for a governmental retirement system typically also includes calculations of items needed for compliance with GASB No. 25, such as the Funded Ratio and the Annual Required Contribution (ARC).
<i>Actuarial Value of Assets</i>	The value of the assets as of a given date, used by the actuary for valuation purposes. This may be the market or fair value of plan assets or a smoothed value in order to reduce the year-to-year volatility of calculated results, such as the funded ratio and the actuarially required contribution (ARC).

<i>Amortization Method</i>	A method for determining the Amortization Payment. The most common methods used are level dollar and level percentage of payroll. Under the Level Dollar method, the Amortization Payment is one of a stream of payments, all equal, whose Actuarial Present Value is equal to the UAAL. Under the Level Percentage of Pay method, the Amortization Payment is one of a stream of increasing payments, whose Actuarial Present Value is equal to the UAAL. Under the Level Percentage of Pay method, the stream of payments increases at the rate at which total covered payroll of all active members is assumed to increase.
<i>Amortization Payment</i>	That portion of the plan contribution or ARC which is designed to pay interest on and to amortize the Unfunded Actuarial Accrued Liability.
<i>Amortization Period</i>	The period used in calculating the Amortization Payment.
<i>Annual Required Contribution (ARC)</i>	The employer's periodic required contributions, expressed as a dollar amount or a percentage of covered plan compensation, determined under GASB No. 25. The ARC consists of the Employer Normal Cost and Amortization Payment.
<i>Closed Amortization Period</i>	A specific number of years that is reduced by one each year, and declines to zero with the passage of time. For example if the amortization period is initially set at 30 years, it is 29 years at the end of one year, 28 years at the end of two years, etc.
<i>Employer Normal Cost</i>	The portion of the Normal Cost to be paid by the employer. This is equal to the Normal Cost less expected member contributions.
<i>Equivalent Single Amortization Period</i>	For plans that do not establish separate amortization bases (separate components of the UAAL), this is the same as the Amortization Period. For plans that do establish separate amortization bases, this is the period over which the UAAL would be amortized if all amortization bases were combined upon the current UAAL payment.
<i>Experience Gain/Loss</i>	A measure of the difference between actual experience and that expected based upon a set of Actuarial Assumptions, during the period between two actuarial valuations. To the extent that actual experience differs from that assumed, Unfunded Actuarial Accrued Liabilities emerge which may be larger or smaller than projected. Gains are due to favorable experience, e.g., the assets earn more than projected, salaries do not increase as fast as assumed, members retire later than assumed, etc. Favorable experience means actual results produce actuarial liabilities not as large as projected by the actuarial assumptions. On the other hand, losses are the result of unfavorable experience, i.e., actual results that produce Unfunded Actuarial Accrued Liabilities which are larger than projected.

<i>Funded Ratio</i>	The ratio of the Actuarial Value of Assets to the Actuarial Accrued Liability.
<i>GASB</i>	Governmental Accounting Standards Board.
<i>GASB No. 25 and GASB No. 27</i>	These are the governmental accounting standards that set the accounting rules for public retirement systems and the employers that sponsor or contribute to them. Statement No. 27 sets the accounting rules for the employers that sponsor or contribute to public retirement systems, while Statement No. 25 sets the rules for the systems themselves.
<i>Normal Cost</i>	The annual cost assigned, under the Actuarial Cost Method, to the current plan year.
<i>Open Amortization Period</i>	An open amortization period is one which is used to determine the Amortization Payment but which does not change over time. In other words, if the initial period is set as 30 years, the same 30-year period is used in determining the Amortization Period each year. In theory, if an Open Amortization Period is used to amortize the Unfunded Actuarial Accrued Liability, the UAAL will never completely disappear, but will become smaller each year, either as a dollar amount or in relation to covered payroll.
<i>Unfunded Actuarial Accrued Liability</i>	The difference between the Actuarial Accrued Liability and Actuarial Value of Assets.
<i>Valuation Date</i>	The date as of which the Actuarial Present Value of Future Benefits are determined. The benefits expected to be paid in the future are discounted to this date.

SECTION F
SUMMARY OF PLAN PROVISIONS

SUMMARY OF PLAN PROVISIONS

A. Ordinances

The Plan was established under the Code of Ordinances for the City of Hollywood, Florida, and was most recently restated under Ordinance No. O-2003-07 passed and adopted on June 4, 2003. The Plan was most recently amended by Ordinance No. O-2011-25 passed and adopted on September 7, 2011. The Plan is also governed by certain provisions of Part VII, Chapter 112, Florida Statutes (F.S.) and the Internal Revenue Code.

B. Effective Date

October 1, 1958

C. Plan Year

October 1 through September 30

D. Type of Plan

Qualified, governmental defined benefit retirement plan; for GASB purposes it is a single employer plan.

E. Eligibility Requirements

All regular full-time employees who are contributing to the pension plan.

F. General Fund Member

Any member paid out of the City's general fund and/or other City funds, with the exception of the water and sewer utility, storm water utility, parking and sanitation funds.

G. Credited Service

Service rendered to the City for which the member has received Compensation and has made contributions to the fund. No service is credited for any periods of employment for which the member received a refund of employee contributions.

H. Compensation

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Gross wages received from the City, including overtime and payments for accumulated annual leave and accumulated sick leave. For members hired prior to October 1, 2002 and employed by the City on that date, Compensation includes payments for accumulated annual leave, but the amount of accumulated sick leave shall not exceed the amount accumulated as of October 1, 2002. For members hired after October 1, 2002, Compensation includes payments for accumulated annual leave, but payment of accumulated sick leave is excluded. For members hired prior to July 15, 2009 who retire or enter the DROP on or after August 17, 2009, Compensation excludes payouts

for blood time and compensatory time. In addition, for these members payments for accumulated annual leave are limited to 125 hours for employees covered by a bargaining unit and are limited to 60 hours for employees not covered by a bargaining unit. For members hired on or after July 15, 2009, Compensation includes only base pay and longevity pay.

General Fund Members

Same as above for benefits accrued before October 1, 2011. Compensation under the definition above is frozen as of September 30, 2011. Effective October 1, 2011, Compensation includes only base pay and longevity pay.

I. Average Final Compensation (AFC)

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Members hired before July 15, 2009: The average of Compensation over the highest 78 consecutive biweekly pay periods of Credited Service prior to termination or retirement. Payments for accumulated sick and annual leave are deemed to be received in the final pay period.

Members hired on or after July 15, 2009: The average of Compensation over the highest 104 consecutive biweekly pay periods of Credited Service prior to termination or retirement.

General Fund Members

Same as above for benefits accrued before October 1, 2011. AFC is frozen as of September 30, 2011. Effective October 1, 2011, AFC is the average of Compensation over the highest 130 consecutive biweekly pay periods or the last 260 biweekly pay periods of Credited Service prior to termination or retirement.

J. Normal Retirement

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Eligibility: Members hired before July 15, 2009: A member may retire upon attaining age 55 with 5 years of Credited Service or upon attaining 25 years of Credited Service regardless of age.

Members hired on or after July 15, 2009: A member may retire upon attaining age 60 with 7 years of Credited Service, upon attaining age 57 with 25 years of Credited Service, or upon attaining 30 years of Credited Service regardless of age.

Benefit: Members hired before July 15, 2009: 3.0% of AFC multiplied by years of Credited Service, up to 81% of AFC.

Members hired on or after July 15, 2009: 2.5% of AFC multiplied by years of Credited Service, up to 81% of AFC.

Normal Form

of Benefit: Single Life Annuity; other options are also available.

COLA: 2.0% per year commencing 3 years after retirement benefits begin. Members hired on or after July 15, 2009 are not eligible for the COLA.

General Fund Members

Eligibility: Members with ten or more years of service as of September 30, 2011: Same as above.

Members with less than ten years of service as of September 30, 2011: Same as above for benefits accrued before October 1, 2011. Effective October 1, 2011, a member may retire upon attaining age 65 with 7 years of Credited Service, age 62 with 25 years of Credited Service, or age 60 with 30 years of Credited Service.

Benefit: Same as above for benefits accrued before October 1, 2011. Benefits are frozen as of September 30, 2011. Effective October 1, 2011, 2.0% of AFC multiplied by years of Credited Service, up to 81% of AFC (reduced by 3% for each year of Credited Service prior to October 1, 2011).

Normal Form of Benefit: Single Life Annuity; other options are also available.

COLA: Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

K. Early Retirement

None.

L. Delayed Retirement

Same as Normal Retirement taking into account Compensation earned and service credited until the date of actual retirement.

M. Service Connected Disability

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Eligibility: Any member who becomes totally and permanently disabled and unable to perform the specific duties of the member's position as a result of an act occurring in the performance of service for the City is immediately eligible for a disability benefit.

Benefit: 75% of salary.

Normal Form of Benefit: Single Life Annuity; or until recovery from disability.

COLA: 2.0% per year commencing 3 years after retirement benefits begin. Members hired on or after July 15, 2009 are not eligible for the COLA.

General Fund Members

Eligibility: Any member who becomes totally and permanently disabled and unable to perform the specific duties of the member's position as a result of an act occurring in the performance of service for the City is immediately eligible for a disability benefit.

Benefit: 75% of salary.

Normal Form
of Benefit: Single Life Annuity; or until recovery from disability.

COLA: Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

N. Non-Service Connected DisabilityNon-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Eligibility: Any member with 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009) who becomes totally and permanently disabled and unable to perform the specific duties of the member's position is immediately eligible for a disability benefit.

Benefit: The greater of:
(1) Accrued Normal Retirement Benefit taking into account Compensation earned and service credited until the date of disability, or
(2) 20% of AFC.

Normal Form
of Benefit: Single Life Annuity; or until recovery from disability.

COLA: 2.0% per year commencing 3 years after retirement benefits begin. Members hired on or after July 15, 2009 are not eligible for the COLA.

General Fund Members

Eligibility: Any member with 7 years of Credited Service who becomes totally and permanently disabled and unable to perform the specific duties of the member's position is immediately eligible for a disability benefit.

Benefit: The greater of:
(1) Accrued Normal Retirement Benefit taking into account Compensation earned and service credited until the date of disability, or
(2) 20% of AFC.

Normal Form
of Benefit: Single Life Annuity; or until recovery from disability.

COLA: Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

O. Death in the Line of Duty

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Eligibility: Members are eligible for survivor benefits after the completion of 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009).

Benefit: The benefit payable to the spouse determined as though the deceased member had retired on the date of death and had chosen a 100% joint and survivor annuity.

Normal Form
of Benefit: Single Life Annuity.

COLA: 2.0% per year commencing 3 years after retirement benefits begin. Members hired on or after July 15, 2009 are not eligible for the COLA.

The designated beneficiary of a plan member with less than 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009) will receive a refund of the member's accumulated contributions.

General Fund Members

Eligibility: Members are eligible for survivor benefits after the completion of 7 years of Credited Service.

Benefit: The benefit payable to the spouse determined as though the deceased member had retired on the date of death and had chosen a 100% joint and survivor annuity.

Normal Form
of Benefit: Single Life Annuity.

COLA: Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

The designated beneficiary of a plan member with less than 7 years of Credited Service will receive a refund of the member's accumulated contributions.

P. Other Pre-Retirement Death

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Eligibility: Members are eligible for survivor benefits after the completion of 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009).

Benefit: The benefit payable to the spouse determined as though the deceased member had retired on the date of death and had chosen a 100% joint and survivor annuity.

Normal Form of Benefit: Single Life Annuity.

COLA: 2.0% per year commencing 3 years after retirement benefits begin. Members hired on or after July 15, 2009 are not eligible for the COLA.

The designated beneficiary of a plan member with less than 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009) will receive a refund of the member's accumulated contributions.

General Fund Members

Eligibility: Members are eligible for survivor benefits after the completion of 7 years of Credited Service.

Benefit: The benefit payable to the spouse determined as though the deceased member had retired on the date of death and had chosen a 100% joint and survivor annuity.

Normal Form of Benefit: Single Life Annuity.

COLA: Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

The designated beneficiary of a plan member with less than 7 years of Credited Service will receive a refund of the member's accumulated contributions.

Q. Post Retirement Death

Benefit determined by the form of benefit elected upon retirement.

R. Optional Forms

In lieu of electing the Normal Form of benefit, the optional forms of benefits available to all retirees are the 5, 10 and 20 Year Certain and Life Annuity options and the 50% and 100% Joint and Survivor options.

S. Vested Termination

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

Eligibility: A member has earned a non-forfeitable right to Plan benefits after the completion of 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009).

Benefit: The benefit is the member's accrued Normal Retirement Benefit as of the date of termination. Benefit begins at age 55 (age 60 for members hired on or after July 15, 2009).

Normal Form of Benefit: Single Life Annuity; other options are also available.

COLA: 2.0% per year commencing 3 years after retirement benefits begin. Members hired on or after July 15, 2009 are not eligible for the COLA.

Members terminating employment with less than 5 years of Credited Service (7 years of Credited Service for members hired on or after July 15, 2009) will receive a refund of their own accumulated contributions.

General Fund Members

Eligibility: A member has earned a non-forfeitable right to Plan benefits after the completion of 7 years of Credited Service.

Benefit: The benefit is the member's accrued Normal Retirement Benefit as of the date of termination. Benefit accrued as of September 30, 2011 begins at age 55 (age 60 for members hired on or after July 15, 2009). Benefit accrued after September 30, 2011 begins at age 65.

Normal Form of Benefit: Single Life Annuity; other options are also available.

COLA: Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

Members terminating employment with less than 7 years of Credited Service will receive a refund of their own accumulated contributions.

T. Refunds

Eligibility: All members terminating non-vested are eligible. Optionally, vested members may elect a refund in lieu of the vested benefits otherwise due.

Benefit: A refund of the member's contributions with simple interest at 4% per year through date of separation.

U. Member Contributions

9.0% of Compensation (8.0% of Compensation for the fiscal year ending September 30, 2010 for members hired before July 15, 2009).

V. Employer Contributions

The amount determined by the actuary needed to fund the Plan properly according to State laws.

W. Cost of Living Increases

Non-General Fund Members and Members Eligible for Normal Retirement as of September 30, 2011

2.0% per year commencing 3 years after retirement benefits begin. For Members who enter the DROP on or after August 17, 2009, the COLA begins 1 year after separation of employment, if later. Members hired on or after July 15, 2009 are not eligible for the COLA.

General Fund Members

Same as above for benefits accrued before October 1, 2011. Benefits accrued after September 30, 2011 are not eligible for the COLA.

X. Deferred Retirement Option Plan (DROP)

Non-General Fund Members and General Fund Members Who Enter the DROP Before October 1, 2011

Eligibility: A member may enter the DROP upon attaining age 55 with 10 years of Credited Service or upon attaining 25 years of Credited Service regardless of age, but before completing 30 years of Credited Service. Members hired on or after July 15, 2009 are not eligible to enter the DROP.

Benefit: The member's Credited Service and AFC are frozen upon entry into the DROP. The monthly retirement benefit as described under Normal Retirement is calculated based upon the frozen Credited Service and AFC.

Maximum

DROP Period: 5 years but no later than completion of 32 years of Credited Service.

Interest

Credited: The member's DROP account is credited with interest at the same rate as the net rate of investment return on plan assets.

**Normal Form
of Benefit:**

Lump Sum or Direct Rollover.

COLA: For Members who enter the DROP on or after August 17, 2009, 2.0% per year commencing 3 years after DROP payments begin or 1 year after separation of employment, if later.

General Fund Members Who Retire After October 1, 2011

These members are no longer eligible to participate in the DROP.

Y. Supplemental Pension Distribution

The Plan provides that a supplemental pension distribution may be paid to eligible benefit recipients if the market value rate of return exceeds the assumed rate of return plus 4.5% (effective as of October 1, 2007). An eligible recipient is any member employed by the City on October 1, 2002, any member receiving benefits on that date, and any spouse of deceased members receiving benefits on that date. The Supplemental Pension Distribution is not payable while an eligible recipient participates in the DROP. The total Supplemental Pension Distribution is equal to the actuarial present value of future retirement benefits with respect to eligible recipients multiplied by the excess (not to exceed 2%) of the net market rate of return over the assumed rate of return plus 4.5%. The amount allocated to each eligible recipient is determined by multiplying the total Supplemental Pension Distribution by each individual member's years of Credited Service divided by total years of Credited Service for all recipients. Credit Service is limited to 25 years.

Z. Transfers

Members who transfer to another City plan are eligible to receive benefits from this Plan. The employee contributions for transferred members remain in the fund. The benefit is based on the Credited Service accrued under this Plan, the multiplier in effect at the date of transfer, and the Compensation earned through date of termination or DROP participation. Eligibility for benefits is based on all service. Death and disability benefits are not payable from this Plan after the date of transfer. Members hired on or after July 15, 2009 who transfer to another City plan are treated as terminated employees.

AA. Other Ancillary Benefits

There are no ancillary retirement type benefits not required by statutes but which might be deemed a City of Hollywood General Employees' Retirement System liability if continued beyond the availability of funding by the current funding source.

AB. Changes from Previous Valuation

There have been no changes since the previous valuation.
